

# Coreference Resolution

Project Title: Computational Linguistics

Author(s): Team Member 1, Team Member 2 and Team Member 3

---

## 1 The first section

One morning, when Gregor Samsa woke from troubled dreams, he found himself transformed in his bed into a horrible vermin. He lay on his armour-like back, and if he lifted his head a little he could see his brown belly, slightly domed and divided by arches into stiff sections. The bedding was hardly able to cover it and seemed ready to slide off any moment. His many legs, pitifully thin compared with the size of the rest of him, waved about helplessly as he looked. "What's happened to me?" he thought.

## 2 Another section

It wasn't a dream. His room, a proper human room although a little too small, lay peacefully between its four familiar walls. A collection of textile samples lay spread out on the table - Samsa was a travelling salesman - and above it there hung a picture that he had recently cut out of an illustrated magazine and housed in a nice, gilded frame. It showed a lady fitted out with a fur hat and fur boa who sat upright, raising a heavy fur muff that covered the whole of her lower arm towards the viewer. Gregor then turned to look out the window at the dull weather.

## 3 Yet another section

As many sections as you need...

This is an example of a citation (Raghunathan et al. 2010). And this is in-text citation, Raghunathan et al. 2010, which is different. You may use this website for more: [https://www.overleaf.com/learn/latex/Articles/Getting\\_started\\_with\\_BibLaTeX](https://www.overleaf.com/learn/latex/Articles/Getting_started_with_BibLaTeX)

### 3.1

Maybe you need subsections...
